OBJECTIVE:

A passionate and hardworking CSIT student with a strong interest in Machine Learning and Artificial Intelligence, seeking opportunities to apply theoretical knowledge to real-world projects. With solid programming skills, a strong mathematical foundation, and deep enthusiasm for AI, And I committed to contributing to team success and advancing my career in the field of AI.

PROJECTS:

House Price Prediction Model

- Created prediction model using RandomForestRegressor to predict house price with good accuracy.
- Performend datapreprocessing, including handling missing values, encoding categorical feature and feature scaling.
- Used Pandas and Numpy for datamanupulation and Matplotlib & seaborn for Data & feature visulization.
- Used Scikit-learn for preprocessing and evaluation.

Nepali Movie Recommendation System

- Built a content-based movie recommendation engine using **Cosine Similarity** for personalized suggestions.
- Developed a custom web scraper using **BeautifulSoup** to collect movie metadata and plot summaries.
- Applied NLP techniques for text vectorization and similarity computation using **Scikit-learn**.
- Created an interactive recommendation interface with **Streamlit** for real-time user interaction.

Telco Customer Churn Prediction

- Built an end-to-end customer churn prediction system with an interactive web interface.
- Implemented a modular backend using **FastAPI** and **Streamlit** for real-time predictions.
- Deployed a trained ANN model to predict churn probability and customer risk levels.
- Displayed actionable insights to support customer retention decisions.
- Try it - <https://telco-churn-prediction-hq2y2n5cf5prntakqy97er.streamlit.app/> 

SKILLS:

Programming Languages

Python, My SQL

ML/AI Frameworks

TensorFlow, PyTorch, Scikit-learn, Keras

Development Tools / Version Control

Jupyter Notebook, PyCharm, VS Code, Git, GitHub

Data Analysis Tools

Pandas, NumPy, Matplotlib, Seaborn

Deployment

Docker, FastAPIs

Soft Skills

Problem-solving, Software Optimization, Critical Thinking, Communication.

EDUCATION:

Bachelor's Degree in Computer Science and Information Technology (Running), Bhaktapur Multiple Campus(Tribhuvan University)

Bhaktapur, Nepal

Higher Secondary Education, Kathmandu Model College
Major Subjects: Physics, Chemistry, Mathematics, Biology

2020 – 2022 | Kathmandu, Nepal

LANGUAGES:

• Nepali

• English

HOBBIES:

• Playing cricket

• Nature photography
